

# Total Benefits of the styrene program - gstyro<sup>SM</sup>

- **Economic method for inhibition & retardation**
- **Longer equipment runs between cleanings**
- **Reduced maintenance costs**
- **Energy savings by improving heat transfer**
- **Reduced hazardous waste disposal.**

# Program for the styrene units - gstyro<sup>SM</sup>

- **GPRC-3780** - Retarder for post reactor cooling train
- **GPRC-3785** – Retarder, inhibitor for vent gas compressor
- **GPRC-3790** – Inhibitor for post reactor condenser.
